

Product Model: KV-300
VGA Extender - 300meters

Main Feature

KVM Extender transmits KVM up to 300m away from a computer using Cat5/5e/6 cable. Each KVM extender consists of a USB Dongle that connects to a computer, and extends the VGA & USB signal to local monitor & keyboard / mouse.

Maximum Transmission Distance Vs. Resolution (@ 60 Hz)

- 50 meters: 1920 x 1080
- 150 meters: 1280 x 1024
- 300 meters: 800 x 600
